

AHMAD FAIK SETIAWAN

Data Analyst

DKI Jakarta | [+62 858-4698-2059](tel:+6285846982059) | ahmadfaiksetiawan@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Data Analyst with hands-on experience analyzing FMCG, e-commerce, and social media data to generate actionable business insights. Proficient in Python, SQL (Google BigQuery), and Excel for data processing and data analysis, with expertise in visualization using Google Looker Studio and Tableau to communicate insights effectively to stakeholders. Experienced in leveraging AI agents to streamline reporting workflows and improve efficiency. Currently developing machine learning-based forecasting models to support FMCG market outlook and strategic planning.

WORK EXPERIENCE

Compas.co.id

Jun 2025 - Present

Data Analyst

- Executed end-to-end data analytics projects for 30+ FMCG clients using SQL (Google BigQuery) and Excel, including social media data analysis across 5+ brands to support market research and business strategy.
- Produced and delivered 70+ analytical reports and dashboards using Google Looker Studio and Google Slides, translating FMCG data into actionable insights for data-driven decision-making.
- Optimized recurring reporting workflows using AI agents, reducing manual processing time by 50% and improving output consistency.
- Built machine learning-based forecasting models with 85–95% accuracy to support FMCG market outlook and strategic planning

SMP Tahfidh Ma'had Yasin Kudus

Feb 2024 - Jun 2024

Director of Public Relations

- Coordinated digital learning implementation and served as a digital learning instructor for teachers, ensuring adoption aligned with user needs.
- Led 5+ digital content projects and analyzed social media performance, reaching 40K+ audience and improving the school's brand engagement.

Madrasah Aliyah Negeri 2 Kudus

Oct 2023 - Jun 2024

Teacher

- Managed and monitored learning performance across 9 excellence classes (±300 students), analyzing participation and assessments data using Google Sheets to track KPIs and identify learning gaps.
- Provided individualized mentoring for 30+ students based on performance insights, improving learning outcomes and optimizing teaching strategies

PROJECT EXPERIENCE

E-Commerce Customer Churn Prediction

- Analyzed historical transactional and behavioral data to identify churn patterns, covering customer tenure, cashback usage, complaint history, distance to warehouse, and purchase frequency.
- Built and optimized a machine learning classification model using Python, achieving 91% F2 Score, prioritizing recall to minimize false negatives in churn detection.
- Identified key churn drivers, including low cashback value, short customer tenure (<3 months), unresolved complaints, and low purchase frequency.
- Developed and deployed a Streamlit-based churn prediction application to enable early identification of high-risk customers and support actionable retention strategies, including targeted cashback incentives, prioritized complaint resolution, and re-engagement campaigns for low-activity users.

E-Commerce Retention & Cohort Analysis

- Conducted cohort and retention analysis using transactional data to evaluate repeat purchase behavior and retention trends across acquisition periods.
- Analyzed key customer lifecycle metrics (repeat purchase rate, purchase frequency, active duration, and churn) to identify high-risk cohorts with early churn patterns.
- Built analytical reports and interactive Google Looker Studio dashboards to clearly communicate insights and enable stakeholders to easily understand retention performance and churn drivers.
- Delivered cohort-based retention recommendations, including targeted follow-up promotions for early-stage customers and re-engagement strategies for declining cohorts, to support improvements in repeat purchase rate and customer lifetime value (CLV).

EDUCATION

- **Purwadhika Digital Technology School Jakarta** **Mar 2025 - Jul 2025**
Data Science & Machine Learning
- **Al-Azhar University Cairo** **Sep 2019 - Aug 2023**
Bachelor of Islamic Law (GPA: 3.20/4.0)

CERTIFICATION

- **Microsoft** **Mar 2026**
Data Analytics
Certificate: [Data Analytics](#)
- **Coding Studio** **Sep 2025**
Excel For Data Analysis
Certificate: [Excel For Data Analysis](#)
- **Purwadhika Digital Technology School** **Jul 2025**
Data Science & Machine Learning
Certificate: [Data Science & Machine Learning](#)
- **Coding Studio** **Jan 2025**
Data Analytics
Certificate: [Python Fundamentals](#) & [SQL Fundamentals](#)

SKILLS

- Hard Skills** : Python Programming, SQL & Relational Databases, Data Wrangling / Data Cleaning, Exploratory Data Analysis (EDA), Social Media Analytics, Data Visualization & Storytelling, Predictive Modeling & Machine Learning Fundamentals, Descriptive Statistics, Inferential Statistics
- Soft Skills** : Analytical Thinking, Problem Solving, Team Collaboration, Stakeholder Communication, Strategic Project Management, Attention to Detail, Time Management
- Tools** : Python, MySQL, Google BigQuery, Microsoft Excel, Google Spreadsheets, Tableau, Google Looker Studio, Microsoft Power BI, Google Slides, Microsoft PowerPoint, Canva, n8n (Workflow Automation), AI Agents (AI-assisted Workflow), Claude Code, Orca, Artifacts, Google Colab, Jupyter Notebook
